

## SPOONER MEN IN THE LEAD

First Assembly District Will Nominate Alexander White Unanimously.

## THIRD IS IN DOUBT

Both Sides Claiming Fraud, and That Illegal Methods Were Used.

## THE SECOND IS SOLID

From present indications it appears that Rock county will send to the next legislature a solid republican delegation of assemblymen who are enthusiastic Spooner men and opposed to the primary election and are good substantial republicans who are not swept away by any fanaticism.

**First District**  
From the first district Alexander White will be the coming assembly candidate. His victory over the anti-Spooner men and the primary election crowd is clear cut and has the earmarks of a revulsion of sentiment in that hitherto impregnable stamping ground of the Governor. He carried the city of Evansville unanimously and in Edgerton received such a boost that even the opposition admit today that he is sure of election. Some of his enthusiastic followers even assert that he is to be nominated by acclamation and that Mr. Fisher's name will not even be mentioned.

**Expert Opinion**  
Mr. F. Crow of Evansville said this morning that the whole district was undergoing a complete change of sentiment on state politics and that Mr. White would have no opposition. In Edgerton Mr. Coon said that while the city had divided its delegation still Mr. White had so clean cut a majority that there seemed to be no question but that he would be unanimously chosen.

**Second District**  
It is authoritatively stated that the Honorable M. G. Jeffris has consented to become a candidate for the assembly from this district in response to a general solicitation from republicans of every shade of opinion. Mr. Jeffris is at present in California and it is impossible to interview him directly, but his candidacy may be taken as an assured fact. His nomination and election to this office will assure Janesville and this assembly district a representative who will use his no inconsiderable influence to advance the rapidly growing interests of this community.

**In The Third**  
At Beloit yesterday the fight was hot and heavy. While Mr. J. A. Brittan, the administration candidate, claims the majority of the city votes still the supporters of former assemblyman, J. Holden Parker, claim that when all the returns from the surrounding towns and villages come in and noses are counted, Parker will have a lead of several votes.

Brittan is said to have been a democrat until this summer when he announced himself as a LaFollette supporter. He is a machinist and for several years past he has been head and front of the labor movements of his union. He is a young man and aside from his support of the unions and dissatisfied republicans and democrats seems to have no backing in the district.

**Blank Affidavits**  
It is claimed that blank affidavits were delivered by a Janesville man on the eleventh dated on the twelfth and were used to swear in the voters used to pack the polls by the LaFollette element. That and the fact that the democrats voted is explained as the cause for a decided slump in the conservative ranks in Beloit city. Mr. Parker only carried fifteen delegates and Brittan received 23 in the city. At present the only difficulty lies in the town of Plymouth and the fate of the nominations hangs on these delegates. Both sides claim them and both sides will contest the election very sharply.

**Claim Frauds**  
It is stated in the conservative camp this morning that Mr. Brittan's victory was due to the use of blank affidavits signed the twelfth and delivered the eleventh which is contrary to the law and the use of democrats at the polls. In the First ward there was almost a pitched battle and for a time it looked as though a riot call must be sent in to stop the trouble. It is also claimed that contests will be made on the delegates that were seated under these conditions.

**Affidavits Filed**  
The other side also claim fraud and say that in the First ward there were twenty-three more votes counted than there were registered voters. It is understood that affidavits to this effect will be filed and are on their way to Janesville.

## POPE SENDS GIFT TO THE PRESIDENT

Bishop O'Gorman Returns from Rome with Handsome Mosaic for His Excellency.

(Special To The Gazette).  
New York, Aug. 13.—Bishop Thomas O'Gorman of South Dakota arrived in New York today on the Hohenzollern, after a three months' tour abroad, during which he visited in Rome and saw the Pope. He brought back with him a beautiful piece of mosaic, a present from Pope Leo to President Roosevelt. He also brought a letter from the secretary of state for the Pope addressed to Secretary of State Hay. The bishop said that he did not know when he would see the President and Secretary Hay, his plans not having been made. He did not know the import of the letter from the pope's secretary of state, he said.

This latter feature will be the principal event and will include speeches by several prominent personages, including Governor Cummins, who will deliver a welcoming address. General MacArthur and Lloyd Wheaton will respond. It is expected that General Irving Hale will be re-elected president. General Hale was the originator of the society. Portland, Ore., is spoken of as being in the lead for securing the next reunion.

## EXTRA SESSION MAY BE CALLED

Congress May Convene for Purpose of Aiding Cuba.

## PRESIDENT'S WISH

Roosevelt Is in Favor of Helping the New Republic.

## WANTS ACTION TAKEN

(Special By Scripps-McLae).  
Washington, D. C., Aug. 13.—It is considered here that the report from Oyster Bay that a special session of congress will be called to consider the reciprocity bill with Cuba, is based upon the personal opinion of President Roosevelt.

**Wants Cuba Aided**  
The present report would show that the president is in the same mood as he was when congress adjourned and desires to do something to aid the new republic.

**Wants Assurances**  
It is also stated on authority that if the President can be given assurances from the party leaders that some definite action will be taken as soon as congress convenes he will not call congress together at the present time.

**BANKS HAVE NOT HOARDED MONEY**

While They Withdraw Bonds They Deposit Large Amounts of Cash.

Washington, Aug. 13.—(Special).—It was thought at one time that the withdrawal of circulation by the national banks would have an adverse effect on the money market during the crop moving period. There were withdrawals during the last fiscal year amounting to more than \$20,000,000, the cause being, as the secretary of the treasury, believed, the advanced prices of government bonds, which made it more profitable for the banks to withdraw their bonds from the treasury than to keep them there as security for their own circulating notes.

**An Increase**  
Within the last few months, however there has been a great increase in the national bank circulation secured by lawful money in the treasury. The net increase in national bank notes, has in fact, kept pace with the rapid increase in the volume of general currency. Last week national banks withdrew from the treasury \$350,000 worth of bonds, but there were deposited in the treasury in the same week \$1,148,580, to secure circulation. The amount of bonds held by the treasury for the security of bank circulation June 30 was \$317,088,580, as against \$226,119,580 a year before, but much of the circulation for bonds withdrawn for that period is still outstanding against the cash paid into the treasury.

**Bond Purchase**  
Incidentally this fact is cited as showing that Secretary Shaw's action in suspending the bond purchase inaugurated by his predecessor has not had the bad effect on national bank circulation that some critics said that it had. The treasury officials are naturally hopeful that there will be no necessity for the treasury to come to the aid of the banks by extraordinary deposits of federal revenues, or by any other measure during the coming crop season. The increased deposits of federal money during the last few months ought to be of assistance, the officials believe, in relieving any danger of stringency. The deposits of this kind are now \$110,092,515 as against \$106,390,353 at the beginning of the present calendar year.

**The Cost of Profanity.**  
Persons with small purses should be careful to estimate the cost of profanity before indulging in it. A millionaire might afford many highly seasoned oaths at sixty-seven cents apiece, perhaps, under the statutory tariff; but the more common variety of man will find it hard if he is to pay forty cents each for those of inferior quality. The inveterate swearer would do well to carry about with him a copy of the oath tariff and to consult it with great care whenever the forbidden desire comes upon him.—Boston Herald.

## BARCELONA IS BEING LOOTED

American Consul Appeals for Protection from Insurgents.

## A CRUISER IS SENT

Great Fear Is Felt for the Safety of All Foreigners.

## THINK CABLE IS CUT

(Special By Scripps-McLae).  
Caracas, Venezuela, Aug. 13.—Word has been received here this morning that the United States cruiser Cincinnati had left for Barcelona at the request of the consul at that city.

**Being Looted**  
Reports from Barcelona say that the city is in the hands of the insurgents and that they are looting the houses, including the American consulate. Great fear is felt for the safety of foreigners and marines will be landed at once to protect their interests.

**Bowen Cables**  
Minister Bowen has not yet been able to communicate with the gunboat Marietta which it was proposed to send to Barcelona to assist in protecting the American interests. The cable from Barcelona is also cut presumably by the revolutionists.

**CUBAN SITUATION NEEDS ATTENTION**

The President May Call an Extra Session of Congress Very Soon.

Washington, D. C., Aug. 13.—(Special).—Practically all doubt has been dissipated as to President Roosevelt calling an extra session of the senate for the purpose of ratifying a commercial treaty with Cuba. Official instructions have been received here which indicate that the senate will be convened in November, though no definite conclusion has been reached. Before congress adjourned, and after it became apparent that no legislation for the relief of Cuba would be adopted, President Roosevelt announced that he would call an extra session for the purpose of considering this question.

**The Opposition**  
It was his original intention to convene congress immediately after adjournment, but as the situation became so involved the leaders advised the president that it would be impossible to secure addition at that time, owing to the strong opposition to Cuban reciprocity. Col. Roosevelt deferred to the wishes of the leaders, but he is still determined that the question shall be presented to congress before the regular meeting time.

**September Session**  
Rumors have been current here to the effect the president would call the senate in session in September or October. After looking into the situation the president has come to the conclusion that until after the elections it will be impossible to secure the co-operation of the democrats, which is necessary to muster the two thirds vote necessary to ratify a treaty. Already a treaty with Cuba has been practically prepared, only the finishing touches and the signatures of the representatives of the two governments being necessary to put it in shape for the presentation to the senate. It is intimated that the session will be called immediately after the elections, although this point has not been definitely decided.

## AMERICA ABSORBS ENGLISH CONCERN

Largest Shipbuilding Plant in Great Britain Is Purchased by American Capital.

(Special To The Gazette).  
New York, Aug. 13.—Private advices of an authoritative nature from Washington state that one of the largest shipbuilding concerns in Great Britain is about to be absorbed by American interests. It is said that the shipbuilding trust formed by Lewis Nixon, which yesterday acquired the Hallam & Hollingsworth company of Wilmington and Crescent Iron works at Ellkabeton, has been and is now trying to get control of Vickers, Maxims & Vickers. Negotiations are said to be progressing so favorably that definite announcement of their consummation may be expected.

At Mr. Nixon's office an attempt was made to verify the report, but it was said that he was out of town, and none of the other officers of the company would confirm or deny the rumor. An effort was made by the Cramps to obtain control of the Vickers. Maxims & Vickers company years ago. Its acquisition by the Nixon interests would greatly increase the importance of the new shipbuilding combination.

## MANY CHARTERS ARE FORFEITED

### ONLY TEN THOUSAND COMPLY

Cancellations by Secretary of State Number 35,000, Including Concerns Now in Business, Which May Be Reinstated Under the Statute.

Springfield, Ill., Aug. 13.—Over three-fourths of the corporations existing under the laws of Illinois have sacrificed their charters through failure to comply with the law.

A law was enacted in 1901 requiring all corporations organized under the laws of Illinois to make a report to the secretary of state between Feb. 1 and March 1 of each year, giving, among other items, the location of principal office, the kind of business engaged in, and names of directors or managers, together with the postoffice address by street and number, and providing that the secretary of state should file with the recorder of deeds of the various counties in the state a complete list of all corporations complying with the law, and providing further that he should enter upon the records in his office the cancellation of the charters of all corporations failing to make the report.

Ten Thousand Report.  
Under the law only about 10,000 of the 45,000 corporations appearing on the records have made a report. On this first of July the secretary of state filed his list with the recorder of deeds and proceeded to enter the cancellation of charters of all other corporations.

The main purpose of the law referred to was to provide a simple method of canceling the charters of dead corporations which were needlessly cumbering the records and holding names which corporations desiring to secure an active business might wish to use.

It is probable that a very great majority of all live corporations, especially of stock companies, have made their report, yet it has been found a number of corporations, through negligence or want of knowledge of the law, have failed to report. A number have confessed the annual report law referred to with the law in relation to an anti-trust affidavit, and, having already filed their anti-trust affidavits, supposed that such an affidavit was all that was required. Section 7 of the law referred to provides a method of reinstatement of canceled charters and already a number have made the proper application and have been reinstated.

May Be Reinstated.  
Section 2 provides that this report shall be made by every incorporated company other than railroad, banking and loan and insurance companies and makes no exception in favor of corporations organized not for profit.

An Illinois corporation can ascertain, by consulting the certified list filed July 1, 1902, in the office of the recorder of deeds in the county where it is located, whether or not it appears upon the records of the secretary of state as a live corporation. In all cases where the name of a corporation does not appear in such certified list there has been entered upon the records in the office of the secretary of state a cancellation of its charter, and such corporation can only be reinstated by filing the affidavit and report and paying the fee of \$20, and this must be done within one year after default in making report.

## QUAY IS READY TO ARBITRATE

### BELIEF THAT THE END IS NEAR

General Opinion Prevails That Pennsylvania's Senators Possess Power to Induce Operators to Treat with Their Former Employees.

Atlantic City, N. J., Aug. 13.—After a conference with George Llewellyn of the Citizens' Alliance of Wilkesbarre, Pa., Senator Quay said he was willing to act as arbitrator to end the strike of the anthracite coal miners. The senator said he was ready to use every effort in his power to restore industrial peace by bringing about a settlement of the strike.

"I deeply regret the present differences," said Senator Quay after the conference, "and I am ready to do anything in my power to settle the strike in the anthracite region. I am willing to meet the miners or operators, or both, if it will aid in restoring peace."

Senator Quay said he would promptly take under consideration any suggestions that might be made by Chairman Llewellyn, and that he had finally consented to act as arbitrator during the conference with the chairman.

## SEE END OF STRIKE.

General Belief that Senators Can Stop the Trouble.

Pottsville, Pa., Aug. 13.—It is believed here that the miners' strike will end within two weeks through the intervention of Senators Quay and Penrose. During the past ten days the two senators have been besieged by nearly every Republican politician of influence in the anthracite region, urging them to use their influence to secure some small concessions to the miners which would be sufficient to end the strike. Over 200,000 letters are on their way to Quay and Penrose making the same request. These have been written by business men and manufacturers as well as the organized miners.

## RELEASES PRISONERS.

Judge Jackson Frees Men Despite Attorneys' Protests.

Parkersburg, W. Va., Aug. 13.—Judge Jackson released Thomas Hagerty and six other members of the United Mine workers who were serving sixty and ninety days in jail for contempt of court. The prisoners filed a petition for release, alleging that they had not known they were violating the injunction when they did so, and promising not to do so again. Attorneys for the coal companies opposed their release, but it was granted subject to re-arrest to complete the original sentence if they violate the injunction again.

## WISCONSIN BANKERS GATHER

State, Financiers in Session to Discuss Topics of Importance.

Milwaukee, Wis., Aug. 13.—Assets, currency, branch banking, taxation of capitalist and surplus of banks in this state will be the principal, and vital questions for discussion at the convention of the Wisconsin Bankers' association now in session here. There were numerous receptions of an informal nature at the railway stations and in the hotels, tendered the bankers from out in the state by Milwaukee members of the state association. From indications not less than 120 members will attend the convention, while other visitors brought to the city incidental to the gathering, including the members of families and friends of the bankers, will bring the total number of guests up to 250.

William R. Grace of New York was the only guest of the president at Oyster Bay Tuesday.

## MUST BELIEVE IT.

When Well Known Janesville People Tell It So Plainly.

When public endorsement is made by a representative citizen of Janesville the proof is positive. You must believe it. Read this testimony. Every backache suffered, every man, woman or child with any kidney trouble will find profit in the reading.

John Mr. Stetson, of Hotel Myers day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with backache, sometimes grinding aches, sometimes dull grinding aches, sometimes robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Sold by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

Remember the name, Doan's, and take no other.

## Parents' Responsibility Great

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results. Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and skin diseases.

## THROWN BENEATH CARRIAGE WHEELS

MISS ELLIS HAS NARROW ESCAPE FROM SERIOUS INJURY.

## A RUNAWAY IN PLYMOUTH

Young Lady Makes Plucky Attempt To Stop Frightened Horse, and Is Run Over.

Miss Mabel Ellis, daughter of Mr. and Mrs. J. G. Ellis, of the town of Plymouth, met with a bad accident last Sunday but fortunately escaped without serious injuries although she is still suffering from severe bruises. Miss Ellis and a young lady friend were on their way to Hanover to church last Sunday morning when the accident happened.

A young boy was driving from them and suddenly the horse threw its head, snapping the check rein. As the bride dropped down and the horse became frightened, Miss Ellis called to the animal and called to the animal and took the lines in an effort to stop him. The only control that she could obtain was the pulling of the lines against the animal's neck and she soon saw that she would be unable to stop him in this way.

The horse had not got to running very fast and Miss Ellis thought she could reach its head. In an attempt to carry out this plan she jumped from the carriage and was thrown underneath, both wheels passing over her. The horse was stopped a short distance down the road by Miss Jennie Ellis, a sister of the injured young woman, Miss Jennie having preceded her sister on horseback.

She hastened back to where her sister was lying in an unconscious condition closely resembling death. It was thought at first that her neck was broken but it was soon discovered that this was not the case. Miss Ellis was soon revived but she passed from one fainting fit to another. She was taken to her home and cared for. One shoulder was very badly bruised, the skin being scraped off. It is still very lame but Miss Ellis congratulates herself that she escaped with out more serious injuries.

## INTERURBAN ROAD WELL PATRONIZED

Work Between This City and Beloit Progresses Rapidly, and is Nearing Completion.

R. W. Hill and H. H. Jackson of the interurban line were in the city today having driven over the line this morning. They say that the grading is almost completed between Janesville and Beloit and the steel is now laid to the top of the hill about four miles south of the city. It is only a question of a few weeks until the entire line will be completed.

The travel over the line between Beloit and Rockford is much better than they expected and their cars are kept busy most of the time. They were now using some cars of the Belvidere line but expect their own cars in a few days when the line will be in better shape to handle the travel.

## SECURED MONEY ON LOVE STORY

Promised to Marry a Girl, Borrowed Money, and Then Skipped Out.

Officers from Marion, Ia., were here on Monday night and took two men giving the names of Ed. Morris and Perry Johnson back to Marion with them. They are charged with defrauding a young lady at Marion out of \$30. One of them promised to marry her and said that he needed some money to get ready, so borrowed \$30 from her. After he secured the money he and his partner skipped, and went to Fond du Lac and came from there here. They were gathered in by the police on Sunday afternoon.

## BABY'S DEATH DUE TO STARVATION

PATHEPIC STORY OF DESTITUTION IN MADISON.

## CHILD'S FATHER IN JANESVILLE

Mother Was Too Ill to Nurse Her New Born Babe—Father a Worthless Drunkard.

Up in Madison several tales of privation and actual starvation of infants have come to the attention of the police of that city. Drunken fathers and poor, unfortunate mothers seem to have been the cause of the last two infant deaths, that have stirred up the public of the Capitol City.

The latest story is of interest to Janesville people only from the fact that the father of the dead infant is said to be here in Janesville. The following is a clipping from the Wisconsin State Journal of August 12:

**Baby Dies**  
"A second case of a baby dying of starvation has come to the Madison authorities. This last one was the little baby girl of Mrs. Harry Quixley, living on East Washington street, between Butler and Webster, near the Burwell and Gaston barns. The death occurred the week before last and the burial was a week ago Sunday.

**Police Learn Story**  
"The facts first came to the attention of the police yesterday. Reports came from the neighborhood of the destitute condition of the family. They were brought up to the station; the mother and two little girls. The mother admitted to Chief Baker that the death of her little six-weeks-old daughter, which occurred ten days ago, was caused from lack of proper food to give the little one.

**Husband in Janesville.**  
"The husband and father, Harry Quixley, is in Janesville. July 22d he had been brought up in the municipal court here for drunkenness and vagrancy. He is the man who while intoxicated went into Drayman Denison's house on Williamson street, mistaking it for his own, and came nearly being prosecuted for burglary. He is a worthless loafer and his absence does not add materially to the wants of the family."

## MUNICIPAL COURT CASES ADJOURNED

Two Important Actions Were Brought Before Judge Field This Morning.

The case of J. A. Barnaby against the Chicago & Northwestern railroad, being an action to recover the value of lost baggage, was called in the municipal court this morning and adjourned for two weeks. The parties agreed to file written pleadings.  
The case of the state of Wisconsin against T. O. Brown of Orfordville, who was arrested last spring for embezzlement of funds belonging to the Heddies Lumber Co., was called this morning in the municipal court and adjourned until December 24. His bond of \$500 was extended to that time.

## NEWS OF THE CITY IN BRIEF.

**Marriage Licenses:** Were issued today to Robert R. Rasmussen and Myrtle E. Cranston, both of Beloit. Charles Fred Vrooman and Martha Kopke, both of Evansville.

**Ladies To Meet:** The Ladies Aid society of the Court street M. E. church will hold a regular meeting in the church parlors, Friday afternoon at two o'clock.

**Marriage Licenses:** A marriage license was issued yesterday to Chas. Thompson and Gertrude Pierce, both of this city. Mr. Thompson and Miss Pierce will be married on Wednesday during the Elks' carnival.

**Switch Boxes:** Linemen were engaged yesterday in putting in switch boxes at different points along the line of street illumination. The arches that are to span the streets are being prepared and will soon be placed in position.

**Machinist Picnic:** The Janesville Machinist Co. picnic to Milwaukee Saturday bids fair to be one of the largest of the season. A large number of tickets have already been sold and it is expected that many more will be between now and Saturday. The St. Paul road are making arrangements to handle a large crowd at that time.

**Band Disappointed:** At one o'clock this afternoon the Imperial band assembled at their hall in uniform in preparation to play at the races of the Guard of Honor of St. Mary's church and were told that the races had been postponed until Thursday so that their services would not be required today. The band concert which was to have been given at the Corn Exchange square last night was postponed until Thursday night.

**A Pleasant Meeting:** About twenty-five members of the Loan band of the First Congregational church met yesterday afternoon at the home of Miss Ludlow, 208 South Main street and had a very enjoyable and pleasant time. A picnic supper was served on the lawn at 6 o'clock and after the supper letters were read from absent members of the band. A letter from R. C. Denison and one from Mrs. Denison were read.

**The Sewer:** Within the past few days a new tile sewer has been completed as one of the first steps toward the general reuniting, and improvement of the Robinson Brewery which has been undertaken since the late re-organization of the corporation. Charles Fish will today or tomorrow begin on the erection of the new iron smoke stack for the building to replace the one which was blown off in a storm last fall. McManara did the work on the new stack. Mr. Williams has been in Milwaukee for some days running up trade, and will return the latter part of the week to look after affairs at the local brewery.

## POLICE SLAIN FROM AMBUSH

SUCCEED IN WOUNDING ONE

Man Shot in the Head Lingers on the Street for Two Hours Before He Finds Someone to Care for the Injury.

Chicago, Aug. 13.—Ambushed by desperadoes, to whom they were giving chase through the residence portion of the west side, Policemen Charles Pennell and Timothy Devine, two of the veteran officers of the West Lake street station, were shot to death in Jackson boulevard, a few rods removed from the fashionable homes that line Ashland boulevard. They raced out of the darkness of the street directly into the range of the assassins' weapons, but in the exchange of shots that followed Policeman Devine found one victim. Now his brother officers are scouring the city for a thief who is wounded through the head.

**Shot Through the Head.**  
The encounter that was fatal for the uniformed guardians of the city occurred shortly before 4 o'clock, at an hour when other patrolmen had left their posts to report at the police station. The murderers fled through the streets, passing almost within the shadow of the station from which their victims traveled, and escaped in Randolph street. The man shot through the head lingered about in the vicinity of Randolph and Ada streets for two hours before he found someone to dress his wound.

There is only the muttered and scarcely articulate words of Pennell as he was dying to tell his comrades how he met his death. Between his pleadings for a last sight of his wife and babies he gasped an incoherent word or two about burglars and endeavored to describe the men who had slain him and his brother officer.

**Get a Clue.**  
All day the detectives have tried to patch out this bit of information and now they believe they have the story in its detail.

Pennell's beat was from Loomis street to Center avenue, and from Harrison to Van Buren streets. Devine was traveling from Harrison to Adams street, and from Ashland boulevard to Loomis street. Shortly after 2 o'clock Pennell went home with Richard Rogers, then walked back to Van Buren and Loomis streets, where he would have to report over a police telephone at 3 o'clock. Devine, following a custom he never neglected, was looking through the all-night saloons on his beat at the same time and they met at the signal box. A square to the north, hidden from the officers by the buildings in the block, two burglars were trying to force their way into a house.

**Heard Housebreakers.**  
The home of Mrs. William R. Miller, 466 Jackson boulevard, had attracted their attention. Mrs. Miller, sitting up with a sick son, heard the housebreakers at midnight trying to open the front door with false keys. Again they were at work an hour later. Then they went around to the rear, and just a few minutes before 3:30 o'clock she heard their keys grating in the lock of the back door. She called out, and the prowlers fled, and it must have been then that Pennell and Devine encountered them.

The burglars probably emerged from the alley back of the Miller residence, and sought to cross the street, Pennell and Devine, standing at the signal box, must have seen them come out of the dark area-way and decided that there was something amiss. Both policemen have a reputation for dogging the steps of whoever loitered about the streets after midnight.

**Run Into Ambush.**  
The alley has several turns between Loomis street and Ashland boulevard, and Devine must have lost sight of the burglars at least three times. When the alley running from Jackson to Van Buren, just east of Ashland boulevard, was reached the fugitives turned their steps toward Jackson. Devine was almost at their heels, but they gained the boulevard several rods in advance of the policeman.

There they must have realized that they could not cross the street under the glare of the electric lights without being a target for the policeman's pistol.

They halted the moment they reached the sidewalk. Devine, stumbling along in the darkness of the alley, was not looking for them to wait his coming, and, with his revolver in his hand, ran on to where the murderers were ambushed.

**Royal Party on a Tour.**  
San Francisco, Cal., Aug. 13.—Grand Duke Boris, cousin of the czar of Russia, and party have left here for Chicago. The duke will visit President Roosevelt at Oyster Bay. The meeting will be an informal one. During the stay of the party in California many places of interest were visited.

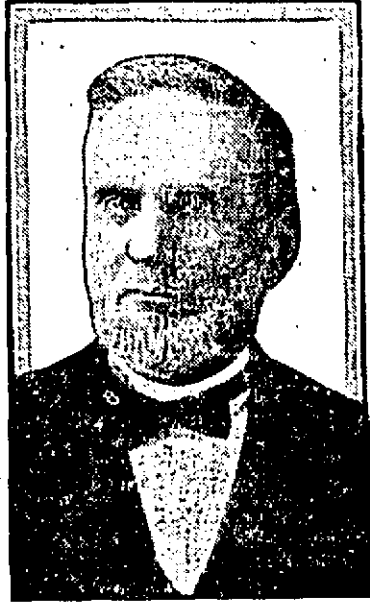

**Klondike Miner Turns Monk.**  
Dubuque, Iowa, Aug. 13.—Doris Kingston has entered the Trappist monastery at New Melleray, near this city. He spent several years in the Klondike, where he made \$17,000, all of which he takes into the order.

**Remarkable Pennsylvania Family.**  
Sixteen children in fourteen years is the proud record of a couple named Hunderson, living near Wilkesbarre, Pa. Only two of the children arrived singly, there being no fewer than seven pair of twins.

## 'INTERESTED IN APPLES.

Leading Growers Favor a Universal Fruit Congress.

In a few days will be held in St. Louis a meeting that may and probably will have a great influence upon the future of the fruit growing interests of the United States. The coming meeting has been called by a committee to arrange for a national congress of apple growers, the latter to convene next December at some point in the Mississippi valley. The congress in

JUDGE FRED WELLHOUSE.

turn is expected to lay the foundation for a universal fruit congress to be held during the Louisiana Purchase exposition at St. Louis.

According to Mr. Henry Clay Cupp, president of the Mississippi Valley Apple Growers' association, it is time that the growers of America's greatest fruit "got together." "The fact that there is no national organization of commercial apple growers and dealers, although the need of one is becoming more urgent every year, induced us to take preliminary steps for an apple congress," said President Cupp. "We are all fruit tree enthusiasts, and, although we have commercial orchards of our own, we believe that no man can make a better investment for himself and his children than to plant an orchard. We have no fear of overproduction. With the present day cold storage facilities it is an impossibility."

Prominent among the men who are interested in the coming fruit congress is Judge Fred Wellhouse of Kansas, the "apple king of America."

Judge Wellhouse has been engaged since 1875 in raising the luscious Ben Davis, Missouri Pippin, New York Imperial and other good varieties of Pyrus malus, and he holds that it is the greatest fruit in the world.

Judge Wellhouse began apple culture a poor man, with practically nothing but his faith in Kansas soil as a producer of apples, and his present financial condition may be judged from the fact that his last year's crop of apples required for transportation more than a hundred freight cars.

For a number of years prior to 1875 Mr. Wellhouse had made a careful study of apple trees and their adaptation to the western prairie soil. He then had an opportunity to get control of some rough land that was not suited to other purposes, and he proceeded carefully and scientifically to plant it with apple trees. He is necessarily an expert on the trees, their growth, care, parasites and the comparative value of the varieties. Judge Wellhouse owns a number of orchards aggregating about 1,240 acres.

States. Mr. Hayes has been a prominent figure in labor circles for a number of years, and for two years he has been sixth vice president of the American Federation of Labor.

The Glass Blowers' association is in a very prosperous condition, its membership never before having been at so high a point. Wages also are higher than ever before, and over 94 per cent of the members of the union have been steadily employed during the present season. Glass blowing is one of the best paid of mechanical occupations, but it is also one of the most injurious to health. The pay in many cases averages \$60 a week.

## BOER LEADERS GIVEN OFFICE

Botha, Delarey and De Wet to Be Members of Transvaal Council.

Brussels, Aug. 13.—It is said that as a result of an interview with former President Steyn of the Orange Free State Mr. Kruger, former president of the Transvaal republic, has announced his political campaign and countermanded the proposed conference of Boer leaders at Johannesburg. It is unofficially announced that Generals Botha and Delarey, who, together with General De Wet are expected to reach England from South Africa next Saturday, will be appointed members of the new Transvaal legislative council.

**Value of Lenses to Rise.**  
Berlin, Aug. 13.—I. F. Fischer of the Board of United States General Appraisers is in Berlin to find out the cost of photographic lenses. The inquiry probably will result in adding 300 per cent to the valuations adopted by the German exporters.

**Smelter at Pueblo Closes.**  
Pueblo, Col., Aug. 13.—The American Smelting and Refining company has closed the Philadelphia smelter here. The reasons given are a shortage of ore and the fact that a new smelter has just been started at Murray, Utah.

**Jim Parish Is Caught.**  
Fort Worth, Tex., Aug. 13.—Jim Parish, one of the alleged Mexican Central train robbers, has been captured in the mountains 100 miles in the interior from the scene of the robbery. A large sum of money was recovered.

**Death of Well-Known Illinoisan.**  
Peoria, Ill., Aug. 13.—Charles H. Powell, one of the founders of the Peoria Evening Star and a man well known throughout central Illinois, is dead, aged 49 years. He had been in ill-health for the past six months.

The Hague, Aug. 13.—Former President Kruger of the Transvaal republic left Scheveningen after a cordial farewell to former President Steyn of the Orange Free State. Mr. Steyn is improving in health.

**Ex-Senator Roach Improves.**  
New York, Aug. 13.—Ex-United States Senator William A. Roach, who three months ago was believed to be dying from a malignant growth which seventeen physicians pronounced incurable, is improving.

**French Mayors Suspended.**  
Paris, Aug. 13.—The opposition to the law of association continues in the provinces. Eight provincial mayors have been suspended from office for refusing to execute the congregation decrees.

Dr. Pierce's Favorite Prescription and perseverance in its use will work wonders for the most hopeless woman. If Mrs. Newton, whose letter is given below, had not persisted in its use, she might never have known the happiness of perfect health. Perhaps the reason for her persistence was because she used "Favorite Prescription" as a "last resort." Physicians had failed. If "Favorite Prescription" could not help there was nothing to hope for. It did help. It always helps and almost always cures. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It imparts strength and elasticity to the organs of maternity and makes the baby's advent practically painless.

"When I consulted you in April, 1898, I was in poor health," writes Mrs. R. F. Newton, of Vanuere, Arcotook Co., Maine. "I had been sick all winter, and, to add to my trouble, was on the road to maternity, which the doctor said would end my days. I was almost discouraged; did not expect any help, but thought the end was only a matter of time, and—oh! my two poor, little, motherless children.

"It was in this condition that I began the use of your valuable medicine. On receipt of your letter of April 6th my husband purchased six bottles of 'Favorite Prescription' and 'Golden Medical Discovery,' and I used it as you directed. When you wrote me words of encouragement on April 27th I had received no benefit from the medicine, but determined as a last resort to give it a fair trial. I am now taking the thirteenth and last bottle. I have a lovely baby girl three weeks old, that weighed 11½ pounds at birth. My baby and I are enjoying perfect health, thanks to your wonderful medicine, to which I believe I owe my life."

## PAPER MACHINE MAMMOTH AFFAIR

### MADE IN BELOIT IRON WORKS

Manufacturers Are Interested in the  
Great Machine Built for an  
Appleton Firm.

Manufacturers in the Fox River valley have been greatly interested in a new paper machine which is now being set up in the paper mill which has been built for the Riverside Paper and Paper Co., of Appleton. The machine is a product of the Beloit Iron works and is unique in its kind. This paper machine is a mammoth affair, two hundred feet in length, occupying a space so high that three tall men, one on top of the other, could hardly see over the top of it. Altogether there are thirty-three rollers, each of them with a diameter of forty-eight inches and a face of one hundred and eight inches. The machine is of the type commonly known as the straight four-roller, which has an adjustable end. This end is directly operated by a lever which allows adjustment to any pitch without delay. One special item that has been taken into consideration and which has been made of great importance in the manufacture of the machine is the high speed at which it is capable of being operated. The Riverside Mill, in which the apparatus is being installed by employees from the Beloit works, is being equipped throughout with apparatus that is of the latest type, and capable of the greatest output.

## TWO THIEVES ARE CAUGHT

### STOLE A PAIR OF PANTS

Are Arrested Through the Vigilance  
of Young Hogan, Who Followed Them.

Two suspicious characters struck the city yesterday and before evening had succeeded in stealing two pairs of pants worth about six dollars a pair from the Golden Eagle clothing store. Their success was not long-lived, for Chief Hogan had both of them in the lock-up by eight o'clock and had recovered one pair of pants. The other pair was recovered this morning at Condon's saloon where one of the crooks had sold them for fifty cents.

**Mysterious Men.**  
The two suspects, a long and a short man, entered the Golden Eagle store last evening about six o'clock and asked to look at some clothing they stayed there for some time and then left. Afterwards they came back again and hung around for a while and went out without buying anything.

**Had the Pants.**  
After leaving the Golden Eagle they went up the stairway into the Sutherland block and hid the pants under the back of their coats. The theft of the pants, was discovered soon after the left and Louis Levy went out looking for the men. Frank Hogan who works for Bort, Bailey & Co. saw two men go up the stairway and told Mr. Levy about it. Levy and Hogan went up the stairway into the hallway but could find no trace of them. Levy then went in search of an officer and Frank Hogan remained near the bottom of the stairs. In a few minutes the two men came down the stairs and started across the bridge towards Main street. Hogan noticed that their coats stuck out in the back as though they had something under them and thought he would follow them until he could find an officer. He got another look to go with him and they followed after the men who went up Main street to Prospect avenue and up the hill as far as St. Mary's church. After stopping there for a few minutes they started back towards the river and crossed Fourth avenue bridge and went up onto the railroad tracks stopping at the new St. Paul passenger station.

**Are Followed**  
Hogan and his partner had been following them and ran onto them at the station. Hogan asked them when the next train was due and said he and his friend were waiting for a chance to get out of town on the front end of some train. Hogan asked the men if there were any cops around and one of the men told him that Hogan was up around the station and they wanted to look out for him. Young Hogan and his friend went up to the station looking for their hief and found him. Frank told his father about the men and he went after them. They had left the St. Paul station when the chief reached there, so he went down the yards looking for them.

**Finds Men**  
When he reached the Five Points crossing he saw a tall hobo standing there that he had ordered out of town and went over and grabbed him. He did not know then that this was one of the thieves, but started for the lock-up with him. When he reached Academy street he met Officer Fanning and turned the prisoner over to him and started back up in the yards. About eight o'clock he spied a short fellow down near the Northwestern round-house and nabbed him.

**Claimed To Be An Employee**  
The man claimed that he had a right to be there, that he was a brakeman on the Madison division and worked for a conductor by the name of Higgins. The chief asked him the number of his caboose and that puzzled him. Hogan then took him over to the freight house where he found out there was no conductor by the name of Higgins running in here on the Madison division. The man at the freight house also told him that the fellow was in the depot a short time before trying to sell a pair of pants.

**Finds The Pants**  
The chief then searched the man and found the pants hidden under his

coat. He took the crook to the lock-up, where it developed that the long man was his partner in crime and that he had sold the pair of pants he had to Condon.

**Tried To Run**  
On the way to the lock-up the short fellow tried to get the chief to let him go by giving him the pants. Hogan said that they were too small for him. The crook said well they are large enough for that smart kid of yours that followed us all over town. The pair of pants sold by the tall man to Condon were recovered this morning.

## MINISTER CONFESSES HE KILLED A WOMAN

Tragedy Occurred Fifteen Years Ago  
While Parson and Friend Were  
Shooting at Target.

Terre Haute, Ind., Aug. 13.—A report from Diamond, a mining town in Parke county, is to the effect that Rev. Charles Hill, formerly of that place and now at a mining town in Clay county, has caused a sensation by confessing that he fired the shot that killed Mrs. Smith, a tragedy that had been a mystery for fifteen years. The aged widow lived with her son at Benwood. On the day she was killed she had gone to the house of a family named Shingdecker to get a bucket of water. As she reached for the bucket she staggered back into the house saying, "I am shot," dropped to the floor and expired.

It was learned that some boys in the neighborhood were firing at a mark and Tom Jewell and Ed Tool were arrested, but the bullet which killed Mrs. Smith was too large for either of the guns the boys were using. They were released, but ever since many persons have believed that one of the boys had fired the fatal shot. Many persons suspected the son, alleging as a motive that he would inherit some property.

The tragedy had been all but forgotten in late years. Now Mr. Hill says that he and William Trager were shooting at a mark a long distance from the Shingdecker house and that a shot fired by himself in the direction of the house was the one which caused the woman's death.

Mr. Hill was ordained as a minister of the Congregational church at Diamond five years ago. Since then he has been the pastor of churches at Diamond, Coal Bluff, Perth and Cardonia, all mining towns. He has many friends and has been prominent in Old Fellowship. His friends are astounded, as none believed him to be a man who would carry such a secret.

Michael J. Hennessy of Worcester, Mass., has allowed twenty-one pieces of skin to be cut from his legs to be grafted upon those of Francis Earl, an 8-year-old boy who was recently badly burned and is now undergoing treatment in the West Pennsylvania hospital, Pittsburgh. Hennessy was taken to the hospital for wounds received in a railway accident and became interested in the case of Earl.

### Chances of Longevity.

A doctor says that persons who attain their thirtieth year without suffering from any serious illness are likely to live till they are at least seventy-three years of age.
